

Dear Commissioner Powell:

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I can get instant traffic and weather updates for various cities with seamless reception from coast to coast. Conventional AM & FM broadcast radio can not offer anything close to this!

I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
